INVESTMENT OBJECTIVE, INVESTMENT STRATEGY, INVESTMENT EXPOSURE AND BORROWING POLICY OF THE FUND

Investment Objective

Capital appreciation in relation to the expansion and proliferation of clean technologies and the companies expected to benefit from the development, advancement and use of these technologies with an emphasis on broad diversification.

The Fund is aimed at investors with a medium to long term investment outlook.

There can be no assurance that the Fund's objectives will be achieved and investment results may vary substantially over time.

Investment Strategy

Principal Investment Strategies

- The fund will target opportunities in light of global concern for the environment and the emergence of **new industries** as a result this trend.
- The fund will invest in a diversified portfolio of listed companies whose earnings are primarily derived from the development and provision of clean technologies and who have achieved a certain **level of maturity** in both their business model and technology.
- Diversification across the clean tech arena - including investment in the following **areas of innovation** – renewable energy (including wind and solar, hydro, tidal wave, geothermal), energy efficiency (better use of energy generation, batteries, fuel cells), water purification, pollution reduction, recycling, energy recovery and efficiency materials.
- Diversification **across geographies** - the fund will invest in a wide range of clean tech firms across all major global equity markets with emphasis on the developed economies of the U.S. the EU and Asia.
- The fund intends to invest in both individual stocks and baskets of listed securities such as Exchange Traded Funds (ETF's).

The Fund shall have ability to hold 100% of its assets in cash and other liquid assets such as bank deposits and treasury bills under the following conditions –

- 1) Pending investment of the proceeds of the offering of shares
- 2) Where exceptional market conditions so warrant such as a market crash or a major crisis which in the reasonable opinion of the Manager would likely have a significant detrimental effect on the performance of the fund.

Under such circumstances the Manager may –

- b) transfer the proceeds of such sale up to 100% into liquid assets as described above.

Genesis Clean Tech Fund Ltd.

There can be no assurance that the Fund's Investment Strategy will be successful and investment results may vary substantially over time.

Investment Exposure Policy

The Investment Manager may seek to provide a target **Investment Exposure of up to 150 %** of the prevailing Net Asset Value depending on various factors such as market conditions and prevailing interest rates and subject to trading performance. The Investment Manager will continually monitor the fund to ensure there is sufficient Trading Capital available to support the desired investment exposure.

In the event market conditions change, the Investment Manager may revise the Investment Exposure significantly lower or even reduce the Investment exposure completely.

In order to achieve the target Investment Exposure, the Investment Manager may utilize various arrangements with financial institutions and investment vehicles which may include Financing Arrangements.

Borrowing Policy

The Directors of the Fund have the power to borrow and may do so not only to meet redemptions which would otherwise result in the Fund having prematurely to realise investments but also as part of the Investment Strategy and as means of increasing exposure as defined in the Investment Strategy. In addition, the Fund may also borrow to cover late subscriptions pursuant to the Subscription Agreement and the approval of the Administrator. Such borrowings will in aggregate, not exceed 150% of the Net Asset Value of the Fund at the time of borrowing.

Should the limit stated above be exceeded as a result of changes in the value or contraction of the Fund through redemptions, then further borrowing will be precluded until such time as the limit is restored.

Genesis Clean Tech Fund Ltd.

RISK FACTORS

Prospective investors should give careful consideration to the following risk factors in evaluating the merits and suitability of an investment in the Fund as they relate specifically to Shares or to the Fund in general, as the context requires. The following does not purport to be a comprehensive summary of all of the risks associated with an investment in the Fund. Accordingly, the following are only certain risks to which the Fund is subject, and the directors wish to encourage prospective investors to consult their own legal, tax and financial advisors regarding the desirability of an investment in the Fund.

An investment in the Fund should be considered speculative especially as the Fund may apply significant leverage of up to 150 % of its net assets, and there can be no assurance that the Investment Manager's assessment of asset allocation will prove accurate. Because of the risks involved, an investment in the Fund is only suitable for sophisticated investors who are able to bear the loss of a substantial portion or even all the money they invest in the Fund.

Investors in the Fund are assumed to be sophisticated investors and to have sufficient knowledge and experience in financial and business matters to be capable of evaluating the merits and risks.

By signing the Subscription Form, each investor represents that he satisfies these and other criteria and that he is acquiring Shares for investment purposes.

New Enterprise; Potential of Loss

As of the date of this Memorandum, the Fund is a new enterprise with no operating history. Accordingly, an investment in the Fund entails a high degree of risk. There can be no assurance that the Fund will achieve its investment objective or that the strategies described herein will be successful.

General Considerations

An investment in the Fund entails certain particular risks and special considerations, which include the following:

Overall Investment Risk. All securities investments risk the loss of all invested capital. Many unforeseeable events, including legislative and regulatory changes and international economic and political developments, may cause sharp market fluctuations which could adversely affect the Fund, and there can be no assurance that the Fund will not incur substantial losses.

Concentration of Investments. The Fund will invest most of its assets in companies that are specialized in Clean Technology. The Fund could be subject to significant losses if it holds a large position in a particular investment area such as Clean Technology that declines in value or is otherwise adversely affected, including default of the issuer. Investors should note that the Clean Technology industry is relatively young and may experience more fluctuations and higher volatility than those of more traditional industries.

Limited Liquidity of Fund Shares. Shares of the Fund are significantly less liquid than marketable securities investments and there is no secondary market for the Shares. Although the Shares are transferable, there are restrictions on transfer. A shareholder will have the right to redeem his Shares at Net Asset Value Per Share, but only on a Redemption Day and upon ten (10) days prior written notice. The Fund may also suspend the calculation of Net Asset Value and the redemption of Shares

Genesis Clean Tech Fund Ltd.

under certain circumstances and may determine to distribute Fund assets in kind if to satisfy Share redemptions.

Investment Manager Discretion. The Fund's shareholders will have no opportunity to select or evaluate any fund investments or allocations. All investments and allocations will be determined by the Investment Manager. The likelihood that Fund shareholders will realise income or gain will depend on the skill and expertise of the Investment Manager.

Increased Exposure Risk. The Fund can apply significant leverage up to 150% makes an investment in the Fund speculative and only suitable for sophisticated investors who are able to bear the loss of a substantial portion or even all the money they invest in the Fund.

Reliance on Investment Manager. The Fund's success depends on the skill and acumen of the Investment Manager for making investment decisions for the Fund. If the Investment Manager should cease to participate in the Fund's business, the Fund's ability to select attractive investments and manage its portfolio could be severely impaired. Further, there can be no assurance that (a) the Fund's investment objectives will be realised, (b) the Fund's investment strategy will prove successful, or (c) investors will not lose a substantial portion of their investment in the Fund.

Conflicts of Interest. Various conflicts between the interests of the Investment Manager and its principals and the interests of the Fund may arise from time to time. Any compensation fee sharing that a fund may offer with respect to an investment in the fund will be retained by the Investment Manager.

Economic Conditions. Changes in economic conditions, including, for example, interest rates and inflation rates, industry conditions, government regulation, competition, technological developments, political and diplomatic events and trends, tax laws and innumerable other factors, can effect substantially and adversely the business and prospects of the Fund. None of these conditions is within the control of the Investment Manager or the Fund.

No Distributions. The Fund does not anticipate making annual distributions to its shareholders. To the extent income is realised by the Fund, the Investment Manager shall reinvest such income on behalf of the Fund. In the event that distributions are declared, they will be out of (i) net income and (ii) the net of realised and unrealised gains and losses.

Lack of Participation by Shareholders. Fund shareholders have no right to participate in the operations or management of the Fund, and the Shares are non-voting shares.

Possible Indemnification Obligations; Litigation. The Fund has agreed to indemnify, among others, the directors, the Administrator, the Investment Manager, the Fund's promoter, the Custodian, the Banker and each of their respective agents, principals, officers, employees, and affiliates under certain circumstances. In the event that the Fund or party which the Fund has agreed to indemnify was named as a defendant in a complaint, lawsuit, or regulatory action stemming from the conduct of the Fund's business, the Fund may bear the additional costs of defending and indemnifying against such action and would be at further risk if the Fund or the indemnified party failed to prevail in litigation.

Tax risks. For purposes of U.S. taxation, the Fund is not expected to be deemed to be "engaged in a trade or business in the United States". Should the Internal Revenue Services determine that the Fund is actually "engaged in a trade or business in the United States", or should existing law or regulations change, the Fund could be subject to U.S. taxes on its portfolio transactions and its receipt of dividends and interest. In any event, the Fund is subject to withholding at the source on account of U.S. income taxes on dividends and non-portfolio interest received by the Fund from the U.S. sources, at a rate of 30% of the gross amount.

Genesis Clean Tech Fund Ltd.

Currency Risk. The Fund's investments may be denominated in various currencies, while the accounts of the Fund will be kept in USD. The Net Asset Value will be expressed in USD. A fluctuation in foreign currencies may have a substantial impact on the performance of the Fund. The Investment Manager has the discretion to seek to hedge any currency exposure of investments made in a currency other than the U.S. Dollar or may decide not to fully hedge (or not hedge at all) the foreign currency exposure and take a directional view depending on the Investment Manager's expectation of the various currencies.

Counterparty Risk. The Fund will have credit exposure to counterparties by virtue of its investment positions. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights.

Market Volatility. The prices of commodities contracts and all derivative instruments, including futures and options prices, are highly volatile. Price movements are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations.

Performance of the Fund. The performance of the Fund depends to a large extent on the correct assessment of price movements of bond, stock, foreign currency and other financial instruments such as derivatives. There can be no assurance that the Fund's Investment Manager will be able to correctly predict such prices.

Regulatory Framework. The Fund will generally be organised, domiciled outside of the United States and the European Community. Foreign government supervision of stock exchanges, securities brokers and issuers of securities is generally less stringent than supervision in the US and EC.

No Current Income

In view of the fact that the Fund will likely not pay dividends, an investment in the Fund is not suitable for investors seeking only current income for financial or tax planning purposes.

Notice Required

A Shareholder will have the right to redeem his Shares at Net Asset Value Per Share, but only on a Redemption Day and upon at least 10 days' prior written notice. During such notice period, the Shareholder's Shares remain at risk and may decrease in value from the date that notice of redemption is made to the Administrator until the effective date of redemption.

Compliance

The Fund must comply with various legal requirements, including requirements imposed by the securities laws, tax laws and pension laws in various jurisdictions. Should any of those laws change

Genesis Clean Tech Fund Ltd.

during the life of the Fund, the legal requirements to which the Fund and the directors may be subject could differ materially from current requirements.

Genesis Clean Tech Fund Ltd.

CERTAIN CONFLICTS OF INTEREST

Activities of Service Providers

The Investment Manager, Administrator, Banker and Custodian and their respective affiliates, which shall be deemed to include, in each case, their respective officers, directors, employees and entities owned by any of the aforementioned parties (the “Related Parties”) may face certain conflicts of interests in relation to the Fund.

Especially, the Related Parties may from time to time act as manager, investment manager, custodian, registrar, broker, administrator, investment adviser or dealer in relation to, or be otherwise involved in, other funds established by parties other than the Fund which have similar objectives to those of the Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Fund. Each will at all times, have regard in such event to its obligations to the Fund and will endeavour to ensure that such conflicts are resolved fairly. In addition, subject to applicable law, any of the foregoing may deal, as principal or agent, with the Fund, provided that such dealings are carried out as if effected on normal commercial terms negotiated on an arm's length basis.

These conflicts include, but are not limited to, the following:

The Investment Manager and each of its directors presently and may in the future, directly or indirectly, direct, sponsor or manage other managed pools or accounts in addition to the Fund. The Investment Manager and each of its directors may have financial or other incentives to favour some such pools or accounts over the Fund. The Investment Manager will make its own decisions for the Fund, which decisions may differ from time to time from those recommended by analysts of the Investment Manager for its other advisory clients.

Some or all of the Related Parties may be involved with other entities utilizing investment strategies similar to those of the Fund and with other business in general. The Investment Manager may cause the Fund to invest in securities in which some or all of the Related Parties have a financial interest, or to engage in transactions with brokers or others with whom some or all of the Related Parties have financial or other relationships.

The Related Parties may engage for their own accounts, or for the accounts of others, in other business ventures of any nature, and the Fund has no right to participate in or benefit from the other management activities of the Investment Manager described above and the Related Parties shall not be obliged to account to the Fund for any profits or benefits made or derived there from, nor shall they have any obligation to disclose or refer any of the investment or service opportunities obtained through such activities to the Fund. Related Parties may own Shares in the Fund, deal as principals with the Fund in the sale or purchase of investments of the Fund or act as brokers, whether to the Fund or to third parties, in the purchase or sale of the Fund's investments and shall be entitled to retain any profits or customary commissions resulting from such dealings.

Certain Investment Manager Activities

The Investment Manager may manage accounts and perform investment management for others, including other investment funds. To the maximum extent permissible, purchases and sales and investment advice are based upon the judgment of the Investment Manager. Also, the Investment Manager and/or its affiliates and/or its employees may from time to time, have an interest, direct or indirect, in a security the purchase or sale of which by the Fund is recommended, or which in fact is

Genesis Clean Tech Fund Ltd.

purchased or sold by or otherwise traded for the Fund. Moreover, such recommendation, purchase, sale or trading may occur in connection with a transaction involving another fund or account managed by the Investment Manager. Accordingly, the Investment Manager may sell or recommend the sale of a particular security for certain accounts, including accounts in which it has an interest, and it or others may buy or recommend the purchase of such security for other accounts, including accounts in which it has an interest, and, thus, transactions in particular accounts may not be consistent with transactions in other accounts or with the Investment Manager's investment recommendations. For example, the Investment Manager may recommend that the Fund sell a security, while not recommending such sale for other accounts in order to enable the Fund to have sufficient liquidity to honour shareholders' redemption requests. When there is a limited supply of investments, the Investment Manager will use its reasonable efforts to allocate or rotate investment opportunities, but the Investment Manager cannot assure absolute equality among all of its accounts and clients.

Other Activities

The Investment Manager, each of its affiliates and the directors may engage in other business activities and manage the accounts of clients other than the Fund. The investment strategy for such other clients may vary from that of the Fund. The Investment Manager, each of its affiliates and the directors are not required to refrain from any other activity nor must they disgorge any profits from any such activity, including acting as general partner, investment manager or managing agent for funds with objectives similar to those of the Fund.

Genesis Clean Tech Fund Ltd.

SHARES OF THE FUND

The Fund's Authorised Shares

The Fund is authorised to issue 5,000,100 shares divided into 100 Ordinary Shares of US\$ 1.00 par value per share and 5,000,000 Preference Shares of US\$ 0.01 par value per share.

This document refers to the offering of the Preference Shares. The Preference Shares will be offered during the Initial Offering Period for an amount of US\$ 100 per Share and thereafter at the Net Asset Value Per Share.

Except, as set forth below, Ordinary Shares shall exclusively possess the voting power of the Fund for all purposes, including the right to elect and remove directors of the Fund.

The Board may refuse to issue, or approve the transfer of Shares in its absolute discretion. The Fund's Preference Shares will only be issued in registered form. Certificates for Shares purchased will not be issued unless requested by a shareholder in writing to the Fund's Administrator.

In order to comply with the provisions of the Mutual Funds Act, 1996 (as amended) in the B.V.I., which became effective as of January 2, 1998, the Fund is recognised as a Professional Mutual Fund. No invitation to subscribe for Shares will be made to the general public.

Unless otherwise agreed by the Fund, each prospective investor is required to certify that the Shares are not being acquired directly or indirectly for the account or benefit of a Prohibited Investor. The term "Prohibited Investor" as used in this Memorandum includes any U.S. Person or Prohibited Person as defined below and more particularly defined in the Memorandum of Association.

Eligible Investors and Restrictions on Transfer of Shares

It is the responsibility of each investor to ensure that the purchase of the Fund's Preference Shares does not violate any applicable laws in the investor's jurisdiction of residence, and any other laws and regulations applicable to such investor. The Fund's Preference Shares may not be acquired directly or indirectly for the account or benefit of a United States Person or Prohibited Person, both as defined below and together "Prohibited Investors". Transfers of Shares to or for the benefit of Prohibited Investors are prohibited.

Unless otherwise agreed to by the Fund, each prospective investor is required to certify that the Shares are not being acquired directly or indirectly for the account or benefit of a Prohibited Investor. The term "Prohibited Investor" as used in this Memorandum means and includes any U.S. Person and or Prohibited Person as defined below and such other persons from time to time designated as such by the Fund.

For the purposes of this Memorandum:

"U.S. Person" means:

(a) any United States citizen or a resident of the United States of America (as defined for purposes of the Federal income tax laws of the United States); or

(b) any corporation, partnership, trust or other legal entity organized or created under the laws of any United States jurisdiction; or

Genesis Clean Tech Fund Ltd.

(c) any organization or entity controlled, directly or indirectly, by a person or persons described in (a) or (b) or of which such person or persons described in (a) or (b) are known to be the owners, directly or indirectly, of a majority of the beneficial interests therein; or

(d) any organization or entity or any branch or agency thereof the income of which is subject to United States income tax regardless of the source of such income; and

“United States” means:

the United States of America, each state therein, the Commonwealth of Puerto Rico and each territory and possession of the United States of America and place subject to its jurisdiction.

“Prohibited Person” means:

any person, firm, company or other entity whose holding of Shares may either alone or together with other shareholdings in the sole and conclusive opinion of the directors of the Fund:

- (a) prejudice the tax status or residence of the Fund, or any of its members; or
- (b) cause the Fund or any of its members to suffer any pecuniary, fiscal or regulatory disadvantage; or
- (c) cause the Fund to be required to comply with any registration or filing requirements in any jurisdiction with which it would not otherwise be required to comply.

The Shares offered hereby are subject to restrictions limiting transferability. The Shares have not been registered or qualified for offer or sale under the laws of any jurisdiction. The directors have broad discretion to refuse to authorise a transfer of Shares and may generally “prohibit” transfer in their sole discretion. As a result of these considerations, investors may not be able to liquidate their investment quickly.

Shareholders are required to notify the Administrator immediately if at any time they become a Prohibited Investor or hold Shares for the account or benefit of a Prohibited Investor.

When the directors become aware that a shareholder: (A) has become an ineligible applicant; (B) is a Prohibited Investor or is holding Shares for the account or benefit of a Prohibited Investor; (C) is holding Shares in breach of any law or regulation or otherwise in circumstances having or which may have adverse regulatory, tax, pecuniary or material administrative disadvantages for the Fund or its shareholders; or (D) has failed to provide any information or declaration required by the directors within ten days of being requested to do so, the directors may either (i) direct such shareholder to redeem or to transfer the relevant Shares to a person who is qualified or entitled to own or hold such Shares or (ii) redeem the relevant Shares.

Any person who becomes aware that he is holding Shares in contravention of any of the above provisions and who fails to transfer or redeem his Shares pursuant to the above provisions shall indemnify and hold harmless each of the directors, the Fund, the Administrator, the Custodian, the Investment Manager and the shareholders (each an “Indemnified Party”) from any claims, demands, proceedings, liabilities, damages, losses, costs and expenses directly or indirectly suffered or incurred by such Indemnified Party arising out of or in connection with the failure of such person to comply with his obligations pursuant to any of the above provisions.

Genesis Clean Tech Fund Ltd.

Voting Control by Holders of Ordinary Shares

The Fund's Memorandum and Articles of Association give the holders of the Ordinary Shares voting power in relation to the Fund, including the right to elect all of the Fund's Board.

Dividend Policy

Payments of dividends on the Shares are not contemplated for the foreseeable future. Investors who anticipate the need for income by the way of dividends from their investment should refrain from the purchasing of Shares.

Compulsory Redemptions

The Board of the Fund has a right to compulsory redeem all Shares held by a shareholder of the Fund if it is determined that the Shares are held by or for the benefit of a Prohibited Investor. The Fund also reserves the right to compulsory redeem all Shares held by a shareholder if the ownership of such Shares by the investor is deemed to be unlawful or detrimental to the interest of the Fund.

A compulsory redemption may be effected in accordance with the provisions of the Memorandum of Association, but generally by the Board giving ten (10) Business Days' notice to a holder of the relevant Shares that all (but not some) of the Shares registered in the name of such person shall be redeemed on the Business Day next following the expiry of the notice period at the NAV of those Shares as determined on the last preceding Valuation Day.

PURCHASE OF SHARES

Subscriptions

During the Initial Offering Period, which will end on April 30th, 2009, (the “Initial Offering Period”) Shares will be offered at a fixed price of US\$ 100 per Share, net of any Subscription Fees. After the Initial Offering Period, Shares are available for subscription on the first Business Day of each month (the “Dealing Day”) at a price equal to the Net Asset Value Per Share calculated at the close of business on the Business Day immediately preceding the relevant Dealing Day (the “Valuation Day”). A “Business Day” shall be any day on which banks are open for business in Switzerland. The Board reserves the right to increase the frequency of Dealing Days. The Minimum Initial Investment is US\$ 100,000. The Board shall have the power to accept smaller initial or subsequent subscriptions in their sole discretion. The Minimum Subsequent Subscription is US\$ 50,000. The Board shall have the power to accept smaller initial or subsequent subscriptions in their sole discretion.

Subscription Procedures

A Subscription Form is provided at the end of this Memorandum for persons wishing to subscribe for Shares. It should be completed by them and returned to the Administrator at the address listed below.

Any application to subscribe for Shares may be rejected in whole or in part by the Fund. Neither the Fund nor any dealer is permitted to withhold placing orders to benefit him or herself by a price change. The Fund reserves the right to suspend the issuance of the Shares in response to conditions in the securities markets or otherwise.

All subscriptions must be made in US\$ (US\$) by wire transfer. Payment for Shares is to be made by or on the next Valuation Day following receipt of the completed Subscription Form. Any rejected order will result in the prompt return of funds to the subscriber, without any earned interest.

An entry fee on all subscriptions of up to four percent (4%) of the NAV may be charged to the investor and be payable to the Fund Promoter. This fee is subject to negotiations for substantial investments.

Anti-money Laundering

To ensure compliance with statutory and other requirements relating to anti-money laundering, the Fund shall require appropriate verification of identity and origin of funds from any person lodging a completed Subscription Form.

An individual shall be required to produce a copy of a passport or picture identity card duly certified by the Investment Manager or a public notary or other public authority in the individual’s country of residence, together with evidence of the individual’s address such as a copy of a utility bill or bank statement. In the case of corporate applicants, subscribers will be required to produce certified copies of their constitutional documents and the names and addresses of all directors and beneficial owners (including a certified copy of their passport).

No such evidence or other evidence of origin of funds may be required if the subscription and payment is made by a recognized financial institution, which is located in a FATF approved country. Failure to provide the necessary evidence may result in applications being rejected or in delays in the dispatch of documents. If within a reasonable period of time following the request for verification of identity and origin of funds, the Fund has not received evidence satisfactory to it as aforesaid, it will refuse to allot

Genesis Clean Tech Fund Ltd.

the Shares applied for in which event application moneys will be returned without interest to the account from which such moneys were originally debited.

Issuance of Shares

Except as otherwise resolved by the directors, Shares shall be allotted and issued with effect on a Dealing Day (the first Business Day of each month), provided the Fund has received application for such Shares at least 10 business days prior to such Dealing Day and payment in accordance with the subscription procedures set forth herein, i.e. on or before the Valuation Day immediately preceding the Dealing Day.

The Fund reserves the right to withdraw or cancel the offering of Shares without notice and the Fund reserves the right to refuse any subscription for Shares in whole or in part.

Share Certificates

Certificates representing Shares will be issued at a one off cost of US\$ 100 but only if requested in writing by a shareholder. Since certificates must be returned to the Administrator prior to the processing of redemption requests, the Fund discourages shareholders from requesting certificates.

Use of Proceeds

Proceeds received by the Fund as a result of subscriptions for Shares (after payment of organisational, offering and ongoing day-to-day expenses) will be used by the Fund in its investment program. Placement is by private placement and not public offering in any jurisdiction.

Dividends

It is not the intention of the Fund to pay distributions or dividends out of the Fund's current earnings and profits. However, the Fund reserves the right to change this policy without notice to, or consent of the shareholders.

Reporting

The Fund will distribute annual reports, which include audited financial statements. Monthly statements and N.A.V calculations will be distributed by the Administrator. The Fund's independent auditors are Deloitte Accountants B.V.

Fiscal Year

The Fund's first fiscal year will end on 31 December 2009 and thereafter on the last calendar day of each year.

Genesis Clean Tech Fund Ltd.

Taxation

B.V.I. Taxation. The Fund was incorporated on the 12th of January 2009 under the laws of the British Virgin Islands as a BVI Business Company. As such, the Fund benefits from the express statutory tax exemption contained in Section 242 of the BVI Business Companies Act (as amended). Under these laws and the exemption, the Fund will be exempt from all income taxes in the British Virgin Islands and its shareholders will also be exempt from all British Virgin Islands income taxes on dividends and other payments received from the Fund. There are presently no capital gains taxes, capital transfer taxes, estate duties or inheritance duties in the B.V.I.

United States Federal Income Taxation. The Fund should not be subject to U.S. federal income taxes on any U.S. source income or gains from its trading (except in respect of any dividends received in the course of such trading) provided that it does not engage in a trade or business within the U.S. to which such income or gains are effectively connected. Pursuant to a safe harbour under the United States Internal Revenue Code of 1986, as amended, a non-U.S. corporation which trades stock or securities for its own account should not be treated as engaged in a trade or business within the U.S. provided that the non-U.S. corporation is not a dealer in stock or securities. The Fund intends to conduct its business in a manner so as to meet the requirements of this safe harbour. If the activities of the Fund are not covered by the foregoing safe harbour, there is a risk that the Fund (but not any investor) will be required to file a U.S. federal income tax return for such year and pay tax at full U.S. corporate income tax rates as well as an additional thirty percent (30%) branch profits tax.

The Fund should not be subject to U.S. federal income or withholding tax on U.S. source interest income (other than in the case of certain contingent interest or interest received from a borrower ten percent (10%) or more of the security of which is owned by the Fund, neither of which the Fund anticipates receiving) provided that the Fund is not engaged in a trade or business within the U.S. to which such interest income is effectively connected, and provided that the Fund's interest-bearing securities qualify as registered obligations and that the Fund periodically supplies an Internal Revenue Service Form W-8 or its equivalent.

Other Jurisdictions. Capital gains and other revenues received by the Fund may be subject to withholding or similar taxes imposed on foreign corporations by the country in which such gains or other revenues originate. In jurisdictions other than the United States, non-U.S. taxes may be withheld at source on dividend and other income derived by the Fund at rates generally ranging up to thirty percent (30%). Capital gains derived by the Fund in such jurisdictions may often be exempt from non-U.S. income or withholding taxes at source, although the treatment of capital gains varies among jurisdictions.

Shareholders of the Fund. Shareholders who are not subject to United States taxes by reason of their residence, domicile or other particular circumstances should not become subject to any such taxes by reason of the ownership, transfer or redemption of the Shares. However, shareholders who are or may be subject to U.S. federal income tax on their worldwide income should be aware of certain tax consequences of investing directly or indirectly in the Shares and should be certain to consult their own tax advisers in this regard.

Dividend distributions, if any, and redemption payments made by the Fund to shareholders who are not U.S. Persons (as defined above) should not be subject to U.S. federal income tax, provided that Shares are not held in connection with a U.S. trade or business of the shareholder in the year of receipt. Individual shareholders who are not U.S. Persons should not be subject to any U.S. federal estate or gift taxes by reason of the ownership or transfer of the Shares. A shareholder's change in status to a U.S. Person could result in adverse U.S. tax consequences, in addition to resulting in a compulsory redemption.

Genesis Clean Tech Fund Ltd.

* * * *

The foregoing summary does not address tax considerations that may be applicable to certain shareholders under the laws of jurisdictions other than the B.V.I. and the U.S. The Fund has no present plans to apply for any certifications or registrations, or to take any other actions under the laws of any jurisdictions that would afford the relief to local investors therein from the normal tax regime otherwise applicable to an investment in the Shares. It is the responsibility of all persons interested in purchasing the Shares to inform themselves as to any income or other tax consequences arising in the jurisdictions in which they are resident or domiciled for tax purposes, as well as any foreign exchange or other fiscal or legal restrictions relevant to their particular circumstances in connection with the acquisition, holding, or disposition of the Shares. The value of the Fund's investments may also be affected by repatriation and exchange control regulations.

All persons interested in purchasing the Shares should consult with their own advisors as to any income or other tax consequences, including, without limitation, transfer and stamp taxes, etc. as well as foreign exchange or other fiscal or legal impositions, applicable to them in connection with an investment in the Fund.

Genesis Clean Tech Fund Ltd.

REDEMPTION OF SHARES

Shareholders may require the Fund to redeem their Shares (subject to the limitations provided herein) as of the last Business Day of each calendar month (the "Redemption Day"), at a price equal to the Net Asset Value Per Share calculated at the close of business on the last Business Day of every month (the "Valuation Day"). The Fund must receive the redemption request in proper form at least 10 Business Days prior to the Redemption Day on which the Shares will be redeemed.

A Redemption Form is provided at the end of this Memorandum for persons wishing to redeem Shares. It should be completed by them and returned to the Administrator at the address mentioned on the Redemption Form.

Requests for redemption must be received by the Fund at the offices of the Administrator. If certificate(s) are held by the shareholder, the Shares may only be redeemed by surrendering the certificate(s) with a written request for redemption. The share certificate or an accompanying stock power, and the request for redemption must be signed by the shareholder(s) exactly as the Shares are registered and bear signature guarantees, when required by the Fund. Redemption requests are deemed received by the Fund on the date they are received by the Administrator. Once made, a redemption request cannot be revoked by a shareholder unless such revocation is approved in writing by the Fund, or such revocation is delivered in writing to the Fund during any period when redemptions are suspended by the Fund.

Where the Administrator has received a Redemption Form by fax, the Administrator must receive the original redemption form before redemption proceeds will be paid. Unless the Administrator otherwise consents, shareholders may not direct payment of redemption proceeds to a third party.

The Fund's obligation to redeem Shares may be suspended (see "Suspension of Redemption of Shares and of Calculation of NAV Per Share" below).

Payments will ordinarily be made within ten (10) Business Days after the Redemption Day or as promptly thereafter as the Board consider feasible under the circumstances, without interest. The Net Asset Value of Shares at the time of redemption may be more or less than the shareholder's cost, depending on the market value of the Fund's investments at the time of the request for redemption.

Suspension of Redemption of Preference Shares and of Calculation of the Net Asset Value Per Share

The Fund may suspend the determination of the Net Asset Value Per Share and/or the ability of any shareholder to have his Shares redeemed:

- (i) during which any stock exchange, board of trade or other interdealer market or contract market on which any of the Fund's investments are quoted is closed other than for ordinary holidays, or in which dealings are restricted or suspended;
- (ii) during the existence of any state of affairs which, in the opinion of the Fund, constitutes an emergency as a result of which disposition by the Fund of investments owned by it is not reasonable or practicable, or would be seriously prejudicial, to the holders of shares or the Fund;
- (iii) during any breakdown in the means of communication normally employed in determining the price or value of any of the Fund's investments, or of current prices on any stock exchange as

Genesis Clean Tech Fund Ltd.

aforesaid, or when for any other reason the prices or values of any investment owned by the Fund cannot reasonably be promptly and accurately ascertained; and

- (iv) during any period when the transfer of funds involved in the realisation or acquisition of any investments can not, in the opinion of the Board, be effected at normal rates of exchange.

The Fund shall suspend the issue and redemption of its Shares forthwith upon the occurrence of an event causing it to enter into liquidation or upon the order of any supervisory authority.

No issue or redemption of Shares will take place during any period when the calculation of the Net Asset Value is suspended. Moreover, the Fund reserves the right to withhold payment to persons whose shares have been redeemed (or to persons who have served a redemption notice) prior to such suspension until after the suspension is lifted. Such right will be exercised in circumstances where the directors of the Fund believe that to make such payment during the period of suspension would materially and adversely affect and prejudice the interests of shareholders who have not redeemed or given notice to redeem. Any such suspension shall be published by the Fund in such manner, as it may deem appropriate to the persons likely to be affected thereby, and shareholders requesting the purchase or redemption of their Shares by the Fund shall be so notified at the time of the request.

During the period of suspension, any shareholder who previously submitted a notice requesting redemption may withdraw the notice, failing which Shares will be redeemed on the Redemption Day which follows the termination of the suspension of redemption.

Net Asset Value Determination of the Shares

The Net Asset Value of the Shares shall be calculated by or at the direction of the Administrator. Securities traded in the over-the-counter market are valued at the last available bid price obtained from generally available reporting services. Securities, which are traded on exchanges, are valued at the closing price in the market on which such securities are traded, as of the close of business on the day the securities are being valued plus or minus accrued interest where applicable.

Lacking any valuations, a fair price will be determined by the Administrator in consultation with the Fund's Board and Investment Manager. In all cases, the Net Asset Value Per Share is calculated by dividing the Fund's Net Asset Value by the total number of Shares outstanding on the particular date requiring the computation.

The Net Asset Value Per Share shall be available at the registered office of the Fund, and will be published on a monthly basis in Telekurs, Bloomberg and on ICG's Internet Site.

The published Net Asset Value Per Share may be updated periodically and therefore the published Net Asset Value Per Share may not necessarily be current as of the date of its publication.

Genesis Clean Tech Fund Ltd.
